PROJECTS

To-do list

Developed a dynamic to-do list application to help users manage tasks efficiently through a user-friendly interface and interactive features.

Technologies used: HTML,CSS,Django,Python,SQLite

Personal Portfolio

Created a personal portfolio website to showcase projects, skills, and professional experience through a visually appealing and user-friendly interface.

Technologies used: HTML,CSS,Javascript

Twitter-like-application

Built a Django-based web application featuring user authentication and full CRUD functionality. Implemented secure user access, allowing only authenticated users to create, edit, and manage their tweets. Designed with a focus on personalized user experiences and responsive UI.

Technologies used: Python,Django,HTML,Bootstrap,SQLite

Django Blog Website

Developed a robust blog application using Django, incorporating comprehensive CRUD functionalities and user authentication. Automated user profile creation upon registration and implemented pagination for enhanced content management. Enabled user-specific post filtering and ensured that only the respective authors could modify or delete their own posts.

Technologies used: Python,Django,HTML,Bootstrap,SQLite

TECHNICAL SKILLS

C/C++	HTML	CSS
JavaScript	Python	SQL
Django
